# **FULL CERAMIC PRIVATE** ADVICE AND INFORMATION

### AS A GUIDELINE ONLY

#### Anterior crown

Posterior crown

Partial crown

**Instructions** - For anterior cases:

Manage the expectation of your patient by making a wax up and requesting a stent over the wax up to be able to base your temporaries on the wax up. Send us an impressions of the temporaries and tell us what you would like to copy and what you would like to improve.

### E.MAX

### Contraindications:

- very deep subgingival preparations
- patients with severely reduced residual dentition
- parafunctions, e.g. bruxism
- provisional insertion/trial wear period
- bridges with a pontic beyond 5's or bigger then 9mm
- cantilever bridges
- more then 3 unit bridges
- adjustments without polishing (please use appropriate burs only)
- always indicate if there is strong discolourations on the die
- don't make sharp corner preparations
- for inlays/onlays the preparation margins must not be located on centric antagonist contacts

### **ZIRCONIA**

#### **Contraindications:**

- very deep subgingival preparations
- provisional insertion/trial wear period
- adjustments without polishing (please use appropriate burs only)
- always indicate if there is strong discolourations on the die
- don't make sharp corner preparations
- for veneer cases give us a "wrap around the incisal edge"

#### Shade

\*\* Do you want to email a picture? Show the shade tab in the picture, specify what shade you have used and send it to **<u>auestions@medimatch.ie</u>** 

Please put patient name and post code in the subject field of your email.
